

BUSINESS AFFAIRS.

DRY GOODS.

GUTHRIE & BROTHERS,
115 Fourth Street.

Look to Your Interests.

The people are aware that D. O'Hare, No. 427 Main street, is the oldest, largest and most experienced manufacturer of trunks and similar articles in the city. They should avail themselves of the rare opportunities afforded by Mr. O'Hare. To country and city merchants he offers peculiar advantages in his wholesale department, while in the retail line he cannot be equaled. Whoever wants to travel, whether with a small carpet-bag or a mammoth trunk, need go no further than to the Great Western Trunk Factory of Mr. O'Hare.

His manufactory is a credit to Louisville, and should meet with extensive patronage. Hundreds of workmen are employed, and thousands of dollars weekly disbursed. As a matter of course, and to subserve economy, purchasers will consult their best interests in purchasing of Mr. O'Hare.

Mr. O'Hare, the well known auctioneer, is ready to accept any kind of consignments of new and second-hand furniture, which will be promptly attended to. The sales of the above mentioned articles will be every Thursday during the season. Remittances made immediately after the sale. Commission cheaper than any other auction house in the city.

Particular attention is given to out-door sales and real estate. The well known character of Mr. O'Hare as a salesman requires no recommendation here, when, for years, he has been favorably known among the business men of the city, and especially by the foreign population. Remember the place, at L. Kahn & Co.'s new commission house, 491 Main street. Regular sales of dry goods, boots and shoes, notions, &c., every Wednesday.

N. B.—Liberal cash advances made on consignments.

Important Notice.—J. M. Armstrong, on Main street, opposite the National Hotel, is now in receipt of some very nice styles of youth's and children's clothing. Also men's clothing of all sizes, together with a full stock of the celebrated Winchester style of shirts, hosiery, gloves, and under garments for ladies and gentlemen, which he is offering at very low prices. Call and see him and examine his stock.

UNHEALTHY BREATH.—In no article of food should more care be exercised than in the "meat of life"—bread. In order to have it healthy and nutritious, good flour and pure yeast are necessary. Hurley's Quick Tonic is the best article in use, and is doing it there is no fear of over-eating a dyspepsia with your breakfast.

LOOK AT THE AUTHORITY.

ROMEO, IND. Dec. 18, 1859.

Dr. Rogers.—Dear Sir: It is due to you and the public, more especially the afflicted, to say that I have given your invaluable Scandinavian Blood Purifier a fair trial in a number of cases of disease arising from unhealthy blood, in all of which it has exceeded my expectations, and comes fully up to the recommendation. I do, therefore, with pleasure, recommend it to all the afflicted, whose disease indicates a remedy of that description.

Yours truly,
See advertisement. J. H. HATKIN.

ADVICE TO LADIES.—We are aware there are many of our lady readers who are complaining of weakness and difficulty. Our advice is to go to once and get some of McLean's Strengthening Cordial and Blood Purifier. It is a delicious tonic, and just the thing to strengthen the system, and give it a new vitality, and purify the blood. See advertisement in another column. Sold here by all drug stores.

SHAKESPEARE ON DRESS.—Shakespeare, who, according to a western editor, was a writer of no little ability and of considerable originality, has very judiciously, that "the appearance of the man." This fact is undeniable, and had the great poet donned two hundred and seventy-five years later, he would, doubtless, have made old Polonius go a step further, and advise his son to purchase all his apparel only at No. 4 Main street, where Dr. Rogers has as excellent an assortment of tailoring and gentlemen's furnishings goods as can be found in the city, and is prepared to furnish everything in his line.

PEPPER SPECIMENS.—If you want a pair of fine spectacles, either the public, principled or cynical, go to P. W. Ramsey's, on Third street, where you will find a great variety. It cannot fail to suit you.

VEGETABLE AND CLOTHING, SHAWLS, RICH FANCY SILKS, POPLINS, VELVETS, MERINOS, DE LAINES, BLACK SKIRT MASTERS, LACES AND LINGERIE, &c.—G. B. Tabb, corner of Fourth and Market streets, has just received, by express, a large and handsome assortment of the above goods, which he is offering at unusually low prices. Many of the above goods, ready in style and design from any goods heretofore received in the market. He cordially recommends this house to ladies in search of the latest and richest goods imported this season. Store on the southeast corner of Fourth and Market streets.

Good News.—At a time like this, when the stock of dry goods is small and badly assorted, "dry" we take pleasure in informing the public that Alexander Ellis & Co. have three million feet of dry goods, well assorted; and they are turning out large quantities of shawls, silks, flannels, and every article of household and dress goods, which they sell at prices which cannot fail to suit their customers. This firm is the oldest in the city; their work may be relied on as the best that can be made. We would advise all who are wanting articles of their line to call at No. 535 Main st. if.

THE LOTTERY IN MARYLAND.—The announcement in the Baltimore, on Friday morning, of the adoption by the Legislature of the New Code, was the subject of general rejoicing throughout the city, especially on account of its provision for the abolition of slavery and the payment of the debt.

Most of the policy vendors closed their offices at an early hour in the morning, others took down their signs and pointed their windows, while a few undertook to brave the law, some of whom were arrested.

ARMING FOR IMAGINARY CONFLICTS.—England fears Napoleon, and though he does all he can by every means to assure her that his intentions are peaceful, still the armaments grow, and the volunteer levies are organizing throughout the kingdom. It has intimated the intention of becoming an honorary member of the Surrey Rifle Volunteers.

SEWING MACHINES.

F. CLARK'S
Revolving Looper Double-Threaded
Family Sewing Machine

EVERYBODY AND HIS WIFE PROUDLY USE F. Clark's in the world. They will wash and hem, make collars and cuffs, sew up rents and tears, mend and patch, and do all other sewing work as well as make beautiful garments, better than any other machine extant, and they will save all kinds of trouble, time and money. Any person of ordinary intelligence can use it without the least difficulty. These machines are sold by all first-class dealers.

The following are among the advantages they possess over all other machines:

1. They are simple, strong and durable, easily understood and managed, and not liable to get out of order.
2. They are simple and strong, and will run on any ordinary spool without winding, saving time, trouble and expense.
3. The stitch is stronger and more difficult to rip than any other made by machinery, and is superior to the hand sewing. The two threads are double looped into each other and firmly secured at every stitch. They take the same stitch as the celebrated Great & Small Sewing Machine, which is the best and most elastic stitch ever made.
4. They sew Cotton, Linen and Silk Thread and

They Finish their work. There is no occasion
to change the threads at either end of the seam, as is re-
quired by all Shuttle-Stitch Machines.

Every Machine is made to run by hand or foot, or
by a treadle, and combines the advantages of both methods.

Several thousand respectable families in different par-
ts of the East, West and South pronounce this the best
and most useful Sewing Machine they have ever used, and
inspire an examination of our Machines.

All letters of inquiry with an extra postage stamp
will receive a prompt and careful answer.

Two-Thread, Double-Lock, Tight-Stitch Sewing Machine!
Price...\$30 and \$45.
THIS IS NO CHEAP, CHAIN, SINGLE THREAD ripping-stitch Machine, but makes in every way same two-thread, double-lock, tight-stitch, as the most expensive machines. It is the only one that makes every third stitch be cut. The principle is new, the machine simple, easily adjusted, and not likely to get out of order. It can be used for a short row of stitching, or for a long row. It will Sew, Hem, Tuck and Gather. It is a children's tool any other in use, every part of which is a real advance. Its simplicity and strength, particularly its ease of use, makes it a most desirable machine for Clothing or Leather, by simply changing the needle and thread to suit the work. Samples of work sent by Paul Schmitt, 1001 Broadway, New York City, on request, free of cost, and personal instructions will be within your reach.
